

## *Currently Listed Applicator Program*

Installation of high quality waterproofing and decking systems requires the commitment of both the manufacturer, to consistently provide high-quality products and timely service, and skilled applicators, to provide installation expertise and finished applications that reflect careful attention to detail, an understanding of the products and systems being installed, and a commitment to customer satisfaction. Working together, we deliver high-performance solutions that protect and beautify the valuable investments of facility owners and property managers.

To become a Mer-Ko Currently Listed Applicator or renew your status, you must provide:

1. Company Profile and Mission Statement
2. Evidence of proficiency in application by past experience and three (3) current qualified references
3. Project list to include projects completed for small (< 300 ft<sup>2</sup>), medium (300–2,000 ft<sup>2</sup>), and large (> 2,000 ft<sup>2</sup>) installations (two projects per type minimum)
4. Participate in a Mer-Ko Education Seminar covering Mer-Ko products and systems, their application procedures, specifications and engineering details that are essential to their proper application/installation
5. Your account must be in good standing.

Upon receipt of the documentation noted above and completion of participation in a Mer-Ko Educational Seminar, a *Currently Listed Applicator Certificate* will be mailed to you for your records. You will then be added to Mer-Ko's Currently Listed Applicator database with an active status for two years. Prior to your two year anniversary date, a letter will be forwarded to you with instructions for renewal of your MCLA active status.

*Mer-Ko is proud to be a part of our Currently Listed Applicators' success by offering high-quality products, friendly service, and on-going education and technical support. We look forward to working with you in the days ahead!*
